

**Aquatic Literacy**

The classroom reading programme is an activity which can be used to explore and develop aquatic knowledge and understanding. WaterSafe Auckland has produced student task sheets <http://www.watersafe.org.nz/page.asp?page=528> to support teachers integrating aquatics education into their literacy programme. These task sheets cover a broad spectrum of reading ages and aquatic contexts and use stories from the Ready to Read, Junior Journal and the School Journal collections.

Have you visited the teacher's toolbox?

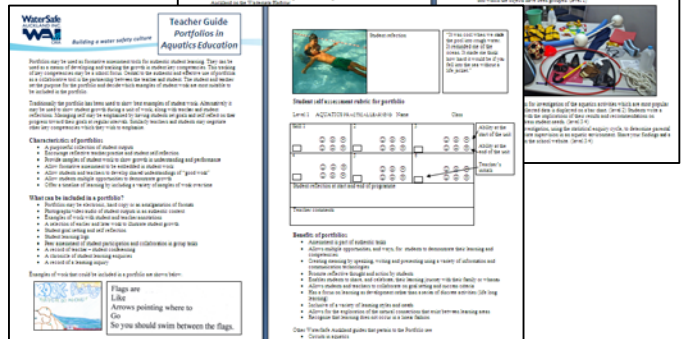

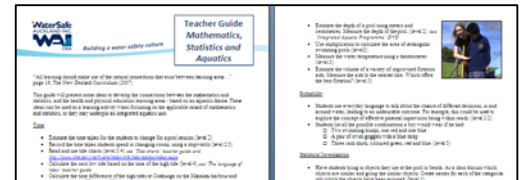

New teacher guides available

Task sheets available

Have you played the interactive game?

<http://www.watersafe.org.nz/page.asp?page=502>

Do you need help with the development or implementation of your aquatics programme, pool and/or classroom?

Would the use of lifejackets (free to borrow) enhance your practical programme?

Do you meet the aquatic needs of your students and your community / How do you know?
